

Alvin Li

Non-Executive Director of the Board, CMU OmniClear Holdings
Head (Financial Market Infrastructure Services), HKMA

Mr Alvin Li is a Division Head of the Hong Kong Monetary Authority (HKMA), responsible for the management and operations of the financial market infrastructure. Prior to the current role, Alvin worked in the banking supervisory function of the HKMA, managing a transformation programme and the implementation of Supervisory Technology. He was also involved in facilitating responsible innovation by the banking industry, focusing on novel technologies such as Distributed Ledger Technology, Artificial Intelligence and Quantum Computing. His background includes roles as a management consultant at an international accounting and consultancy firm and a security strategist at one of the major cloud service providers. He holds a master's degree in Criminal Justice and Cybersecurity.
